

DIDSBURY PIONEER

VOL. X

DIDSBURY, ALBERTA, WEDNESDAY, NOVEMBER 27th, 1912.

THE SUNDAY SCHOOL

LESSON IX.—FOURTH QUARTER
DEC. 1, 1912

Text of the Lesson, Mark ix, 14-29
Memory Verses 28-29.—Golden Text
Mark ix, 23 (R.V.)—Commentary
by Rev. D. M. Stearns.
Wait while heaven and earth
pass away, but ye stand firm
in the kingdom of God. When
the Son of Man shall sit
in his kingdom, ye also shall
sit upon twelve thrones, judging
the twelve tribes of Israel.

A GREAT CHANCE FOR YOU TO SAVE MONEY

A REMARKABLE 10 DAYS SALE OF SUITS AND OVERCOATS, BEGINNING NOV. 30TH

Real winter is not here yet. Most of you have your winter clothes to buy. You are here offered the chance to pocket immense savings, but you must act quickly. Don't make the mistake of waiting until the last days of the sale. We expect the biggest business we ever had. Those who COME SOONEST WILL BE THE HAPPIEST.

250 Suits and Overcoats

Will be closed out at Remarkably Low Prices

The lot embraces every popular style color and fabric. Space will not permit us to state prices, but we guarantee you 25 per cent. discount on every Suit or Overcoat during the 10 days sale.

Special for Saturday, Nov. 30th

Any \$25.00, \$28.00 or \$30.00 Suit for \$18.50

This sale is a big opportunity to get Father or Brother a dandy new Suit or Overcoat for a Christmas Present. Cost will no longer be an objection AFTER YOU HAVE SEEN THE EXTRAORDINARY VALUES WE ARE OFFERING.

J. V. BERSCHT

UNION BANK OF CANADA

Great Missionary Coming

The Presbyterian Church in Canada are following out a new plan in the west in connection with its church work.

Dr. Grant, Dr. Shearer and Dr. M. McKenzie are touring the west, touching the most important places in connection with the budget of the Presbyterian church.

Dr. Murdock McKenzie, a great missionary in Presbyterian church work in Honan, China, will visit Didsbury on Thursday evening when he will give an address in the Presbyterian church, commencing at 7.30. The Doctor is a fine speaker and is thoroughly well acquainted with his subject, and all who can should make it a point to turn out and hear him. Everybody is heartily invited to attend.

Speaking of Dr. Mackenzie the Regina Leader says: "The problem of China formed his subject and proved a fine stimulant to all who heard him. Dr. Mackenzie is a coming figure."

His record of service in heathen fields commands the respect and gratitude of all who look toward the day when the ends of the earth shall see the salvation of our Lord."

Notice

Town of Didsbury, Municipal Elections 1912.

Public notice is hereby given that a meeting of the electors of the Town of Didsbury will be held in Wigglesworth's Hall on Monday, the 2nd day of December, 1912, from 11 o'clock in the forenoon until 12 o'clock, noon, for the purpose of nominating candidates for Mayor, Councillors and School Trustees for the next ensuing two years.

Given under my hand at Didsbury this 25th day of November, 1912.

J. M. REED,
Returning Officer.

Mayor Will Stand for Election if Nominated

It seems to be the opinion of some of the ratepayers that Mayor H. B. Atkins should again sit in the chief magistrate's chair at the Council Board for another year so that the financing of the debt on the electric light plant can be worked out as the work has been undertaken during Mr. Atkins incumbency.

The Mayor himself states that he would like to be able to finish up this work and for this reason alone is willing to serve another term, although he states that he considers he has had his share of the honor of sitting in the Mayor's chair.

The Women's Institute will hold their first meeting on Saturday, Dec. 7th, in the Presbyterian church. All the women of the community are requested to be present.

The many friends of Mr. Gus Gilchrist will be sorry to learn that he has been seriously ill for some time. Latest reports state that he is improving a little.

Financial Affairs in Good Shape

The annual town meeting of the ratepayers was held in Wigglesworth's hall on Monday night for the purpose of hearing the auditor's report of Town and School finances for the past year.

The Mayor, who acted as chairman, and all the Councillors except Coun. Cooper were present.

There were very few ratepayers present for which the Town Council are to blame because of the poor publicity given to the notice of the meeting. The old village way of putting up five or six written notices was followed out and the consequence was not a quarter of the ratepayers saw them. The Town Secretary states that in doing this he was following out the famous new town act that the Council did not give orders to have the meeting advertised in any other way.

The Sec. Treas., Mr. Jas. Reed, read the reports and they showed that the financial position of the town of Didsbury were in an excellent condition considering the amount of work that had been done through the year and the erection of the electric light system.

Expenditures for town... \$11,048.87
Receipts for town... 10,069.51

Leaving deficit at bank... \$ 949.36

TOWN STANDING

Owing by the town for salaries, deficit at bank, amount due School District, etc..... \$10,847.36

Amounts receivable by town on Jan. 1, 1912... 13,145.60

Showing a surplus to credit of town... \$ 2,298.24

ELECTRIC LIGHT STATEMENT

Receipts of debentures and electric light returns and loan from bank... \$25,709.77
Expenditure on construction and operation... 25,657.19

Bal. in bank... \$ 52.58

Expenditure under construction (Maxwell)... \$20,004.72

Expenditure since construction under operation and extras... 5,139.34

Total... \$ 5,544.06

Receipts, debenture... \$19,275.85

Receipts from plant, light etc... 2,189.47

Bal in bank... 67.19

Total... \$21,532.51

Bal. owing for electric light plant... \$ 4,011.55

Surplus from town... 2,298.24

Total bal. owing by town \$ 1,714.31

Councillor St. Clair, chairman of the Board of Public Works, gave a short statement of his department, showing that \$960 had been expended for public works.

Councillor Chambers, chairman of the Fire, Water and Light committee, gave the following report of the electric lighting system from February 1st to November 1st, 1912:

Operating expenditures... \$2,310.44

Receipts, lighting, etc... 2,189.47

Dr. Bal... \$ 120.97

This shows an average monthly expenditure of \$256.71 and average monthly revenue of \$243.27, a deficit so far of about \$13.47, which is very little considering that the plant is being newly operated.

There are 102 installations of the light, of which 96 are being used.

Miss Gertrude Parker is relieving Miss Dorothy Shantz of the telephone staff, who is spending a vacation at Didsbury, Seattle and other famous resorts.—Carstairs Journal.

AROUND THE TOWN

Mrs. C. Hiebert was a visitor at Calgary last week.

Mrs. W. H. Stark and Miss Dolly Stark returned from their visit to the States on Friday last.

Fun for young and old at a fishing booth at the Presbyterian bazaar.

Mr. and Mrs. James Rennie of Calgary were visiting with Mr. and Mrs. O. W. Hembling last week.

W. L. Webster and wife of North Branch, Mich., are visiting with his brother, E. C. Webster, who lives northwest of town.

Mrs. James Rennie of Calgary was the guest of honor at a small tea party given by Mrs. O. W. Hembling on Friday afternoon.

Mrs. J. S. Daum left on Saturday last for Saskatoon to attend the funeral of her nephew, Mr. Edward Fisher.

There will be held an annual meeting of the Didsbury Agri-

cultural Society on Friday, December 6, at 3 p. m. at the Fire Hall.

Mr. James Pirie of Orangeville arrived here on Monday to take a position as head clerk in Studer & Co.'s store. Mr. Pirie expects to move his family here in the spring.

There is trouble ahead for the School Board. All the teaching staff at the High School are out on the war path for a substantial increase in salary.

Mr. P. P. Woodbridge of the central office, United Farmers of Alberta, will speak at the Westcott school house on Friday evening at 8 o'clock.

The Ladies' Aid of the Presbyterian church will hold a bazaar in the Jackson block, west of the Pioneer office, on Friday, November 29th, commencing at 3 p. m. and continuing through the evening. Fancy work and home cooking will be sold, and refreshments will be served all the time. Come and enjoy a good social time.

New Town Act Bars Poor Man

A bomb exploded at the meet-
ing of the ratepayers on Monday
night when it was stated by the
Solicitor, Mr. H. S. Patterson, that
only "owners of freehold estate
within the town of the value of
\$500 over and above charges,
liens and encumbrances" were
eligible to be called to the po-
sitions of Mayor and Councillors
at the forthcoming municipal
elections according to the new
Town Act.

A great deal of indignation was
expressed after the meeting, the
feeling of most of those present
being that they had been held up
by the Provincial Legislature and
that a man who was deeply in-
terested in town affairs and
would give faithful service to the
town although perhaps only own-
ing his house and lot on which
there was some incumbrance
would have no chance to do his
duty by helping in some munici-
pal office.

The clause in the new Town
Act is as follows:

"After first election any person is eligi-
ble for election as Mayor or Councillor who
is a British subject by birth or natural-
ization, is a male of the full age of
twenty-one years, is able to read and
write the English language, is not sub-
ject to any disqualification under the
Act or the Controverted Municipal Elec-
tions Act, is resident within the town or
within two miles of the limits of the
town and is the owner at the time of
nomination of a freehold estate within
the town of the value of \$500 over and
above all charges, liens and encum-
brances affecting the same and whose
name is on the last revised assessment
roll of the town."

Then the Act says that

"Only persons qualified to vote for
candidates shall be qualified to nominate
candidates for the office of Mayor or
Councillor."

The persons qualified to vote
at Municipal elections shall be
of the full age of 21 years, whose
names appear on the last revised
oters lists of the town and as-
sessed on the last revised assess-
ment roll for \$200 or upwards
and whose taxes are paid.

"It is a pleasure to tell you that
Chamberlain's Cough Remedy is the best
cough medicine I ever used," writes Mrs.
Hugh Campbell, of Lavonia, Ga. "I
have used it with all my children and
the results have been highly satisfactory."
For sale by all dealers.

School Trustees

The School Trustees are nomi-
nated and elected under the
School ordinance and consequent-
ly they are elected as before, as
there has been no changes made

in the Ordinance. The
relating to qualifications of
School Trustees says:

"Each person nominated for the po-
sition of School Trustee shall be a resi-
dent ratepayer of the district who has
paid all taxes due by him to such dis-
trict and is able to read and write."

In another column we report
the members who retire from the
School Board this year who are
Messrs. Dr. Weart, H. Reiber and
J. V. Berscht. These gentlemen
should be persuaded to again fill
their offices. Their work has
been greatly appreciated by the
majority of the ratepayers and
they are good level headed busi-
ness men. We cannot do better
than give them another term if
they will accept.

"There could be no better medicine
than Chamberlain's Cough Remedy. My
children were all sick with whooping
cough. One of them was in bed, had a
high fever and was coughing up blood.
Our doctor gave them Chamberlain's
Cough Remedy and the first dose eased
them, and three bottles cured them,"
says Mrs. R. A. Donaldson, of Lexing-
ton, Miss. For sale by all dealers.

Coun. B. A. St. Clair has re-
signed his position on the Town
Council, which is to be greatly
regretted. He has shown him-
self a painstaking and loyal
member of the Council for the
last three years, which the rate-
payers have greatly appreciated.
The public works department
business as a whole was never
better administered than it
has been in Mr. St. Clair's
charge and it is to be hoped that
the new Council will be able to
find him some position in the
public service whereby his
services will be retained.

The town finances look good
on paper, and no doubt would be
good "if" all those taxes were
collected. There is still some
fancy financing to be done before
the town is on a solid financial
footing.

What with the single tax and
a few other clauses in the new
Town Act regarding elections the
Provincial government certainly
have made a pretty mix-up for
the small towns in Alberta. We
heard a gentleman say "a bunch
of school kids could have done
better."

Is your husband cross? An irritable,
fault finding disposition is often due to a
disordered stomach. A man with good
digestion is nearly always good natured.
A great many have been permanently
cured of stomach trouble by taking
Chamberlain's Tablets. For sale by all
dealers.

DON'T BE BALD

Nearly Anyone May Secure a
Splendid Growth of Hair

We have a remedy that has a record
of retarding baldness and promoting hair
growth in 93 out of every 100 cases where
used according to directions for a reason-
able length of time. That may seem
like a strong statement—it is, and we
mean it to be, and no one should doubt
it until they have put our claims to an
actual test.

We are so certain Rexall "33" Hair
Tonic will eradicate dandruff, act to pre-
vent baldness, stimulate the scalp and
hair roots, arrest premature loss of hair
and promote hair growth, that we per-
sonally give our positive guarantee to
refund every penny paid us for it in
every instance where it does not give en-
tire satisfaction to the user.

Rexall "33" Hair Tonic is as pleasant
to use as clear spring water. It is de-
lightfully perfumed, and does not grease
or gum the hair. Two sizes, 50c and
\$1.00. With our guarantee back of it,
you certainly take no risk. Sold only at
our store—The Rexall Store, H. W.
Chambers.

troubled look came into Lady Anne's face.

What does he want? she murmured impatiently. What can he gain by hanging about this neighborhood?

He wants to get possession of the property.

But that is impossible, as I told him yesterday, she cried, with you in the way. If he consults his lawyers, and they are honest they cannot tell him otherwise. You don't mean to let him supplant you, I suppose?

There was a note of anxiety in her tone.

I mean to please you in everything, if I can.

Then you will stick to your claim, she said promptly. If it means that an underbred, inquisitive person such as Reuben Symonds would be here in your place. As a boy I always disliked him extremely. He has inherited nothing from his mother but her looks. Sir Joseph was very kind to me and very clever, but no one would have thought of calling him a gentleman. The son is worse.

Even I would be less objectionable as master here?

She looked at him kindly and smiled.

I like your society, Harry, she said, and I value your friendship.

The words were not warm, but they delighted the young man.

You have not only my friendship, he said quietly. You have my very heart and soul, Lady Anne.

What! all this after last night? she exclaimed archly.

What difference could last night make except to increase the charm you have for me?

And Miss Morgan's charm—what of that?

She was making an effort to speak lightly, but she was watching his face with a strained intensity in her eyes.

Miss Morgan is delightful in her way, Harry answered; but—but she is not you.

He was not in the least vain, but Lady Anne's evident interest and anxiety about his feelings for another woman was comforting.

She paused for a few seconds, keeping her eyes fixed upon his face the while.

Then she spoke gravely.

Do you think you ought to have gone as far as you did with Lillias last night if you do not really care for her? she asked. The girl is very sensitive and affectionate; she is an orphan, and she has had a sad life up to now. She thinks very highly of you; was it quite fair of you?

Harry stared at her in perplexity.

Perhaps I did not pay her enough attention, he said. Her playing and singing were excellent; but I could not keep my eyes away from you.

Oh, leave me out of it! she cried.

BABY LOVES HIS BATH

CUTICURA SOAP

No other keeps the skin and scalp so clean and clear, so sweet and healthy. Used with Cuticura Ointment, it soothes irritations which often prevent sleep and if neglected become chronic disfigurements. Millions of mothers use these pure, sweet and gentle emollients for every purpose of the toilet, bath and nursery.

Cuticura Soap and Ointment are sold throughout the world. A liberal sample of each, with 22-page booklet on the care and treatment of the skin and scalp, sent post-free. Address: Potter Drug & Chem. Corp., Dept. 312, Boston, U. S. A.

W. N. U. 928

Impatiently

Even though you are a Clavel, try to be fair and honorable in dealing with a woman! I don't talk about the evening, but the night. What was it brought you back into the grounds at midnight, and made you play that trick upon Miss Morgan? You might have killed her with fright. Even if you are in love with her—

But I am not in love with her! Harry interrupted, and I have not the slightest idea what you mean.

She looked at him steadfastly, reading truth in his eyes.

Then she turned sharply away, and put up her hands to her face, pretending to arrange her hair. He could see that her fingers trembled, and that she was weeping.

He did not dare to touch her as he longed to do, to support her in his arms and comfort and soothe her, though the sight of her distress rent his heart. The feeling came upon him again that this beautiful, soft-voiced woman, with the queenly shape and the shining eyes, standing so near to him, was in reality a long way off, and no more of his life than a figure in a dream.

You are unhappy, was all that he could whisper. Is there nothing I can do?

Nothing, nothing! she murmured, as she dried her eyes. But the next moment she added in a very low voice—

Talk loudly, please, about the grounds or anything! George Anning is creeping under the trees and trying to listen to us.

Amazed by the order, Harry was trying to obey it, when from the direction of the house the figure of Maria was seen approaching.

The woman paused at one end of the wooden bridge, and called across to Lady Anne.

A gentleman has called, milady, she said; the one who came yesterday afternoon. He is in the drawing-room, and he gave me his card to bring you.

Lady Anne turned to Harry.

It is Reuben Symonds again! she exclaimed, while a flush of anger reddened her cheeks. How is it possible for a man to be so vulgarly insistent? I will not see him.

The gentleman said he would wait in the drawing-room until you came, Maria explained in her piteous tone. He told me he was not in a hurry, as he meant to dine with you.

Can you understand her? cried Lady Anne, her blue eyes alight with indignation. She tells me this Symonds creature has invited himself to dine with me! Only a man can cope with such a savage. Harry, go into the house for me and get rid of him.

Before Harry could step off the bridge to obey her, Lady Anne uttered an exclamation of dismay.

He is actually coming here! she said.

It was now a little past six o'clock and Reuben Symonds was wearing dress clothes under a brown-colored overcoat, and set of shirt studs of large black pearls. He looked like a figure in a tailor's circular, and tottally out of keeping with the mediaeval charm of the scene as he carefully picked his way in his pointed patent-leather boots along the tree-shaded path by the water.

Thought I should find you here, he remarked to Harry with an impudent nod, as he met him by the bridge. You appear to live at the Abbey. Good morning, Anne.

He would have stepped on to the bridge to join her, but that Harry blocked the way.

Lady Anne does not feel well enough to talk to you today, he said. I believe we are cousins, Mr. Symonds; so that if you have anything more to say you can do so to me. I am going home now.

He half hoped that Reuben would resent his interference. He longed for a tussle with him out of sight of Lady Anne, and his fingers tinkled to seize this over-smart intruder by the collar, and give him a good bath in the shallow water ways.

Reuben Symonds considered the young American from head to foot, and appreciating his muscles, answered him amicably.

You and I have plenty of time for a chat, Clavel, he said. I have seen Wentworth and Trentham & Ash this morning, and I know you are acting on the straight. But my business now is with Lady Anne Daubigny.

Lady Anne honors me with her friendship. She has deputed me to ask you not to trouble her now.

I am sorry to disoblige a lady; but my business is pressing. And I have come all the way from Melbourne to carry it out.

Your business can have nothing to do with Lady Anne, retorted Harry; it concerns me. You had better come with me to the Manor House, where I lodge, and discuss it there.

Thanks, but I'm dining here.

(To be Continued)

No, Cordelia, a dancing academy is not necessarily a hop joint.

Not the Same

Time was when he had been an officer in a rack regiment. But he had fallen on evil days. Now he was compelled by force of circumstances to resign his commission, and enlist in another regiment as a humble private. He found it, however, very hard to forget his former position, and when he was requested by a sergeant to hold his horse he remarked—

Er—you—er—forget, sergeant, that I once held his Majesty's commission. The sergeant looked at him in the cold and critical way that only a sergeant can.

Did you, my son? he asked. Well, you can just hold one of his Majesty's horses now.

A Pill for All Seasons.—Winter and summer in any latitude, whether in torrid zone or Arctic temperature, Parmelee's Vegetable Pills can be depended upon to do their work. The dyspeptic will find them a friend always and should carry them with him everywhere. They are made to withstand any climate and are warranted to keep their freshness and strength. They do not grow stale, a quality not possessed in many pills now on the market.

Stranger—Could you help a poor fellow whose wife and children are thirsty?

Jones—Why are they thirsty?

Stranger—Why, we just got a case of beer from a kind lady, but we ain't got no money to buy a corkscrew, see?

Minard's Liniment Cures Diphtheria

Owing to the rapid growth of business in the city of Edmonton the freight offices of the Grand Trunk Pacific there have become inadequate necessitating the move which has just been accomplished to large and more pretentious quarters. The old building will be devoted to the Grand Trunk Cartage and the various foremen for the present.

Deafness Cannot be Cured

by local applications, as they cannot reach the diseased part of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, deafness is the result, and unless the inflammation can be taken out of the tube restored to its normal condition, hearing will be destroyed for ever; nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free.

Take Hall's Family Pills for constipation.

Two old college chums lost sight of each other for years. One day

one of them, down on his luck, worn of face and clothes, entered a cheap eating house and seated himself at a table.

Yes sir? asked the shabby waiter briskly.

Then the customer looked up and to his amazement recognized his old chum.

Great Scott, man, he exclaimed. Fancy your having sunk to being a waiter and in a place like this, too.

The waiter turned up his nose.

Yes, I'm a waiter, he replied sarcastically but thank goodness I don't eat here.

As a vermouth there is nothing so potent as Mother Graves' Worm Exterminator, and it can be given to the most delicate child without fear of injury to the constitution.

Lots of poor men are the architects of other men's riches.

Getting Along

Spratts—Miss Elder is much older than I thought.

Hunker—Impossible.

Spratts—Well, I asked her if she had read Aesop's Fables and she said she read them when they first came out.

Unique

Wiseman—I see an Ohio man has gone insane from reading the Congressional Record.

Cynicus—So? Well, he has won distinction in a field that never before has held out hope to any ambition.

No Chance

And what is your occupation? asked the insurance agent.

I'm a woodman. During the hunting season I act as guide.

Oh, I'm sorry, but my company won't write a policy in your class.

Why not? Surely I'm a good risk.

My dear sir, you're not a risk, you're a certainty.

Query—Is a bride self-possessed after her father gives her away?

You can always get a lot for your money if you patronize a real estate dealer.

Advantages and Saving by Using The Loading Platform

In the writing we desire to put before our Western Farmers the saving and advantage of loading grain direct on cars. Shipping grain through an elevator, it matters not whether a Government elevator or one run by an elevator company or individual owner, does not add the least fraction of a cent to the value of the grain, nor does it give the farmer any better chance of marketing it to advantage than when loaded direct on cars. But loading direct in cars cuts out in the first place the elevator charge, which is usually 1 1/2c. per bushel, say \$17.50 on a thousand bushel car. The elevator dockage is also saved; this may be worth more or less, depending partly on how dirty the grain is, but mostly on the farmer's ability in holding his own with the elevator man taking it in. On the average the dockage may be considered worth 3c. per bushel to the farmer, or say \$30 per car of 1,000 bushels. When grain is loaded direct into a car over the Loading Platform, the farmer knows for sure that it is his very own grain that will be graded by the inspector, and that he will without doubt receive the full and exact outturn of his car at whichever terminal elevator it is unloaded; for all grain is unloaded from the cars under government superintendence and weighed by properly qualified government weighmen under the rules and supervision of the Dominion Government Board of Grain Commissioners.

Of course, it makes no difference in our loading of the farmers' grain whether it has been shipped through an elevator or over the Loading Platform, but it can easily be seen from what we have stated above where the farmer's advantage lies, when it saves him around \$50 or more on every car he ships.

We continue to act as the farmers' agent in looking after and disposing of carlot shipments of wheat, oats, barley and flax strictly on a commission of 1 cent per bushel. We are not connected with, nor interested in any elevator companies or elevators, either local or terminal; neither are we truck buyers, in fact, we never buy farmers' grain on our own account, but only to handle and dispose of the grain entrusted to us as the agents of those who employ us. Many years' experience, with a wide connection and ample facilities for engaging in this special branch of the grain trade, have given us a reputation of the highest character in it. We make liberal advances on car bills of lading. Write us for shipping instructions and market information. We give as references to our reliability, efficiency and financial standing any city or country Bank Manager in Western Canada.

Winnipeg, Canada.

GRAIN GROWERS!

GRAIN GROWERS of the West, what is your duty to the Grain Growers' Grain Company?

WE HAVE now a reserve fund of \$250,520.50, with a paid up capital of \$600,000. In addition to paying a satisfactory dividend to our shareholders, we have in the last six years donated about \$10,000 to the Western Grain Growers' Associations and to other educational work among the farmers.

Had the grain that made this profit been shipped to other firms or commission houses, the dividends paid to shareholders and the donations to the Grain Growers' Associations would go to increase the profits of private commission houses and grain dealers. Besides these facts, we have created competition in the grain trade that could not come in any other means. Our export activities have been successful in keeping Winnipeg cash quotations for grain right up to export values, getting for the farmer something closer to what supply and demand would warrant.

You will notice that there is this year an extra effort made on the part of a large number of commission firms and others in the business in having the country covered by truck buyers, street buyers and solicitors for grain. This all costs money and the farmer pays for it all in commissions; if you ship to your own company you pay your own agency the commission. What is not used in conducting the business of The Grain Growers' Grain Company goes to increase our reserve fund, to pay dividends to our stockholders, and to carry on additional educational work in the interests of the producers of grain.

We are operating the Manitoba Government line of elevators. Our operators will take your grain to store, buy in car loads on track or in wagon loads on street.

Farmers have always maintained that The Grain Growers' Grain Company needed a terminal elevator to make them an effective force in keeping up the price of grain and in giving the farmers the best service to place their products in the consumers' hands on ultimate markets. You have your own terminal now, and we thus appeal to you to help make this undertaking a success by consigning your grain to The Grain Growers' Grain Company's terminal at Fort William.

Also subscribe for stock, the additional capital is much needed if we are to enter the co-operative field. Besides, it is a sound investment.

GRAIN GROWERS, it is all in your hands, what are you going to do?

THE GRAIN GROWERS' GRAIN CO., LTD.

DENIAL OF EMBARGO

RESTRICTION IN LOADING IS TO RELIEVE CONGESTION

Railway Officials Deny That Embargo Was Placed on Wheat—Elevators However, are Unable to Handle Grain That is Arriving, at Boats are Being Delayed.

Fort William.—Given the bottoms, Fort William can handle grain faster than all the railroads can bring it to the head of the lake, according to a statement made by F. W. Young, general manager of the Lake Shippers' Clearance Association.

Mr. Young states that there is nothing in the present situation to inspire a panicky feeling and that while there is a large quantity of grain in store here, there is still room for as much more.

Nearly 1,500,000 bushels is pouring into the holds of boats from the elevators daily. Rates this year are much better than they were one year ago, and lake shippers are getting about all the traffic will stand for moving grain down the lakes.

There is, however, little doubt that the movement this year has not been so brisk as it might have been. This is, however, a condition over which shippers, elevator men and transportation interests have no control. It is claimed. The market has been a falling one. Dealers are not anxious to sell on a low market. On a rise grain will be rushed to the market but they are holding it for this raise.

This is done largely in the terminal elevators and it is this fact that is largely responsible for the unusually large quantity in store here.

The total storage capacity of the terminal elevator plants is estimated at 25,000,000 bushels.

That a general grain embargo has not been placed by the C.P.R. in the west was the statement by D. C. Coleman, general superintendent of the road, and R. A. Morgan, superintendent at Fort William.

They admit however that a restriction in loading has been placed equal to the capacity for unloading at the elevators at Fort William.

At present the C.P.R. have 8,000 cars en route here and can unload between 600 and 700 cars a day. The company is loading in the west about 500 cars daily with the intention of increasing the number as soon as the situation is relieved.

However the elevator men state that about 2,500,000 bushels will have to be shipped daily in order to have the elevators in good shape by the close of navigation.

It is claimed that with the boats now in sight this will be possible. The situation at Buffalo and the Georgian Bay ports, however, will be a factor in deciding this. If they cannot handle the boats as fast as they arrive, delay in the boats returning will naturally result.

The capacity of the elevators at the head of the lakes is estimated at 28,000,000 bushels, but with the multiplication of loads the elevators are unable to handle the quantity.

To Sell Homes on Insurance Plan

Moose Jaw, Sask.—The contract has now been closed with the National Construction company of Winnipeg for the erection of 100 modern and medium-priced residences to be sold on the insurance plan. Immediate possession will be given purchaser upon his first payment down, the general plan of payments being modeled after the 20-year endowment policies of the leading life insurance companies. In the event of the death of the head of the family before completion of payments, a clear title of property goes to the widow. A special feature of the sales plan is an allowance of \$100 in favor of married couples, this sum to be deducted from the purchase price for each birth occurring in the family after taking possession. The prices of the proposed houses will range from \$3,000 and upwards. The Imperial Bank is to act as trustee for receiving initial payments, turning over the funds to the building committee upon the completion of the houses. The bank after crediting the monthly payments will allow purchasers 3 per cent interest on these amounts until they are paid over to the builders. With interest and bonuses, it is explained, the ultimate cost of the houses to the buyers should be considerably under the purchase price as stated.

Hurricane in Jamaica

Kingston, Jamaica.—The western end of the island of Jamaica has been devastated by a hurricane lasting for five days. A great tidal wave has swept over both the north and the south coast, practically wiping out the town of Savanna La Mar and Lucie, both towns of considerable importance.

According to a report brought by a steamer, 42 persons were killed at Montego Bay. The coast roads have been wrecked along the southwestern coast, and incalculable damage has been done.

The latest reports indicate that the tidal wave swept over Savanna La Mar and adjacent villages for a quarter of a mile inland. The effects of the hurricane extended along the coast eastward to Black River, about twenty-five miles from Savanna La Mar, where the residential quarter was wrecked.

Geneva.—Three persons have died in the Canton Vaud, Switzerland, and many others are suffering from the effects of taking snuff which was found to contain 3 per cent of lead.

HUDSON BAY RY. A BOON

Will Carry 50,000,000 Bushels of Wheat Yearly, Says Official

Edmonton.—Within three years' time more than 50,000,000 bushels of western wheat will be finding its way to the markets of the world by way of the Hudson's Bay Railway and Port Nelson if present expectations are fulfilled, said H. H. McNeill, secretary of the company on arrival in the city from the west in company with Mr. Letta, the Grand Trunk Pacific colonization agent.

It is because the people of the west demand it, he added, and it is a moral certainty that the line will be operated by the Government and that it will be one of the most profitable railroads in the Dominion.

The length of the line from Le Pas to Port Nelson, on the Hudson's Bay, is 500 miles and today 75 miles of road are graded and ready for track, while there is on hand a sufficient supply of steel for the first 150 miles.

The right of way is cleared 150 miles.

Mr. McNeill went on to say that there could be no permanent solution of the blockade problem until a new outlet had been provided and he affirmed that such an outlet would be provided by the new railway.

It should be possible to lay down Scotland anthracite coal in the prairie provinces at \$8 a ton, compared with the present price of something like \$12 a ton for Pennsylvania.

The \$60,000,000 C.P.R. Loan to be Issued Jan. 2

Montreal.—Definite announcement is made that the Canadian Pacific railway will make the issue of \$60,000,000 common stock, authorized at the special general meeting of the shareholders last month, early in the coming year. The new stock to the full amount authorized by the meeting will be offered to shareholders of record at 3 p.m. on Thursday, January 2, next, the right to subscribe to expire on Thursday, February 13.

The issue is to be made as far as possible at \$175 a share. There was some expectation that the announcement with regard to the new issue would be made after the monthly meeting of the board of directors a week ago yesterday. The failure to make the announcement was generally ascribed to the uncertainty prevailing in the financial markets abroad, but apparently the delay was only temporary.

Ten Million for Harbor Improvements

Ottawa.—The public works main estimates this session will provide about ten million dollars for harbor improvements next season at St. John, N.B., Quebec, Toronto, Port Arthur, Vancouver, and Victoria. The new terminal scheme at Halifax will be looked after by the railway department, while the Montreal harbor improvements are financed under special arrangement with the harbor board.

TO EFFECT ARMISTICE

NEGOTIATIONS FOR PEACE ARE NOW IN PROGRESS

It is Believed That Bulgaria Will Demand the Capitulation of Several Fortified Cities, to Which Turkey Will Not Likely Accede—Cholera Complicates Matters.

Constantinople.—Nazim Pasha, commander-in-chief of the Turkish army; Izzet Pasha, chief of the general staff of the war office and later commander-in-chief in Yemen, and Chaden Bey, councillor of state, have been appointed as Ottoman plenipotentiaries for the negotiation of an armistice with the Bulgarian representatives.

The question of peace bulks large in the foreground. The fact that the official communication with regard to the Bulgarian reply issued at both Constantinople and Sofia make no mention of preliminary conditions, has given rise to comment, as it was generally expected that Bulgaria would insist upon fixing a basis before consenting to enter upon negotiations.

Indeed the belief was very general that Bulgaria would demand the capitulation of Adrianople and other fortified places and the foreign minister recently stated to the ambassadors that Turkey would refuse to entertain any such stipulation.

Apparently Bulgaria has found good reasons for refraining from such an attitude, especially as the entering upon peace parleys will not compel the suspension of hostilities until the armistice has been actually signed.

As has already been pointed out, the question of cholera complicates the issue at Tschatalja and it is rumored that the Bulgarians were retiring to more sanitary positions near Tschatalja.

The Porte has applied to the embassies and legations for the withdrawal of the naval contingents landed on Monday on the ground that their presence is no necessary, while it is admitted that should danger arise there will always be time enough to take measures of precaution.

It is generally believed that the object of the authorities in quartering nearly two thousand cholera patients in the Mosque of St. Sophia is to deter any enemies from entering the building. The talk in the Sofia papers regarding the celebration of Te Deums in that historic pile undoubtedly produced an impression on the Turkish Government, which resorted to this truly Oriental expedient of diverting such a design.

A letter from Drama says that long before the Bulgarians approached the town the authorities were seized with panic and besought the foreign consuls to arrange for a peaceful surrender.

Next day the governor, the military commander and the commander of the gendarmes attired in mufti abandoned the place while soldiers and gendarmes did likewise.

REMARKABLE CANOE TRIP

Harvard Graduate and Indian Guide Explored Virgin Wastes Around Hudson's Bay

Ottawa.—The story of a remarkable canoe trip in an unknown section of the Hudson's Bay by a Harvard graduate and a single Indian was brought to Ottawa in letters from Mr. Ernest Oberholtzer, who is at his home in Davenport, Iowa.

Mr. Oberholtzer, who has spent a couple of seasons exploring the extraordinary water routes in the Rainy river valley of Four Traders, left Le Pas, on the Canadian Northern railway, with Billy McGee, his Indian, from Fort Francis, at the end of June and followed the route via Reindeer Lake that was taken by Mr. Tyrrell in 1894 on his second trip through the barren lands for the Geological Survey to Dabrochel, the last mission station.

No Indians were procurable and Oberholtzer rejected advice to turn back. Finding Tyrrell's maps were without a flaw, he went north to Sandy Lake, where he left Tyrrell's route to follow the Thlewassa river to the bay. For 400 miles the route was where no white man had ever been seen, including the traverse of Nuthellin or Sleeping Island Lake, which Samuel Horp crossed on the way to the Coppermine December 30, 1770.

Part of this lake is in the treeless regions and on the way down the river, which is full of rapids, he saw innumerable caribou.

Hudson's Bay was reached about 125 miles north of Churchill on September 14. An Esquimaux happened to be at the mouth of the Thlewassa with a whale boat, in which the trip to Churchill was concluded. Thence to York the trip was continued in the canoe.

York was left on October 1st very late in the season. They arrived at Norway House a week after the last boat for Selkirk had left and the journey up Lake Winnipeg to Gimli occupied sixteen days, Gimli being reached Nov. 5 after a journey of 2,000 miles lasting 130 days.

No such trip has been known to be accomplished by two men and a single canoe and many escapes from disaster were experienced. Mr. Oberholtzer is making a sketch map of Thlewassa and Nuthellin Lake and on reporting the news to Dr. Roche, the minister of the interior, it was decided to place Mr. Cahillour, the Dominion geographer, in communication with Mr. Oberholtzer.

New York Celebration

New York.—New York will celebrate the three hundredth anniversary of the founding of the first settlement on Manhattan Island. Major Gaynor so promised in agreeing to appoint a committee of one hundred to arrange for the ceremony. He was requested to do so by a representative committee of citizens. The first settlement on Manhattan was established November, 1683.

SERVING IN THE FRONT

Comparison Favorable to Canada

Winnipeg, Man.—Figures just published as a result of recent investigations serve to throw valuable light upon the matter of subdivisions and townsite projects in Western Canada. It appears, for instance, that Winnipeg now has a population of about twelve persons per acre inside the corporate limits; the present area being 15,000 acres. There are yet 70,000 acres to be taken into the corporation; and with the enlarged area there should be room for a million inhabitants, the figure that appears likely to be reached within the coming 15 years. This would mean an aggregate area for the city at the end of that period of 85,000 acres. In comparison with these figures it is shown that New York City, for instance, has at the present time some 85,000 acres of vacant land in addition to the areas built upon and occupied for business and residential purposes. Similar conditions, it appears, prevail in other leading American cities where no question has been raised as to the standing of the subdivisions. It is also shown according to figures given out by the Merchants' Association of New York, that the municipal debt of that city is now over 1,037 million dollars, or several millions more than the entire American National debt. The figures stated are regarded as a telling reply to the frequently repeated charges hinting at recklessness and high finance in the case of certain Canadian municipalities.

Rescued in the Nick of Time

Vancouver.—Five days and nights without sleep, three days without water to drink, wet to the skin during the whole of that period on a helpless waterlogged, dismantled schooner, and then, when hope had been abandoned and the men crowded into the only remaining small boat with huge seas carrying them into the rugged shores of Vancouver Island, the welcome smoke of the Canadian fisheries cutter William Joffe hove in sight, and nine sailors were snatched from the jaws of death.

This was the experience of the crew of the American schooner E. K. Crow whose members arrived here this morning. The schooner was abandoned a wreck on the Vancouver Island coast. She had a cargo of lumber out of Bellingham, bound for San Pedro, Calif., and had sailed November 9.

Death at a Hurling Match

Dublin.—During a hurling match at Freshford, County Kilkenny, one of the players, named Meacher, fell forward and died shortly afterward. A doctor asserted that death was due to a cardiac attack brought on by excitement.

London.—No fewer than 204,000 scholars were inspected by the London county council's doctors last year. More than 60 per cent showed physical defects.

PARCEL POST EXTENSION

Postmaster-General Considering Adoption of U.S. System

Ottawa.—The postmaster-general, Hon. L. P. Pelletier, is considering the question of following the lead of the United States, of Great Britain, and of other European countries in regard to the parcel post system. Canada has, so far, lagged behind these countries in the matter of adopting a comprehensive parcel post system in competition with the monopoly of the express companies. With the increase in density of population and the inauguration of a rural mail delivery, it is believed that conditions in Canada will soon be ripe for a considerable extension of the present very limited parcel post arrangements of the post office department.

The United States postal department will inaugurate, on Jan. 1 next, a parcel post system, with a weight limit of 11 pounds and special rates for dairy and farm products for urban consumption. Mr. Pelletier will probably send officials of the department to the United States during the coming winter to investigate the working out of the new system with a view of adopting it at least in part of Canada.

London.—Statistics show that 273,649 emigrants entered Canada during the last half year, a total which beats all records.

THE SUNDAY SCHOOL

LESSON IX.—FOURTH QUARTER DEC. 1, 1912

Text of the Lesson, Mark ix, 14-29

Memory Verses 28-29.—Golden Text Mark ix, 23 (R.V.)—Commentary Prepared by Rev. D. M. Stearns.

For a little while heaven and earth had touched in a new way, by those who had once lived on earth, but had been long absent from it, one by death and one by translation. When the risen and translated saints shall be reigning with Christ in his kingdom (Rev. i, 9, 10; xx, 4) this will probably be the ordinary, everyday occurrence everywhere, the New Jerusalem from heaven and the one on earth in perfect accord, the glorified Church and redeemed Israel the heavenly and earthly centers of his kingdom, when a king shall reign in righteousness and the work of righteousness shall be peace and the nations shall learn war no more (Isa. xxxiii, 1, 17; ii, 4).

As the devil was in control at the foot of the mountain when Jesus and his disciples came down and the disciples there could not conquer him, so it shall be when Jesus Christ shall come in his glory; then He shall bind the strong man, whom the church cannot cast out, and shut him up in the pit and take control of his property, for till then the whole world shall continue in the wicked one as the prince of this world. Let those who would understand take the trouble to ponder, with prayer and meekness and submission to the word of God, the following passages, for it is all important to understand this present age, its ruler and his doom: 1 John, v, 19, R.V.; John xiv, 30; II Cor. iv, 4; Eph. ii, 2; I Thess. ii, 7-10; Dan. vii, 25; xi, 35, 36; xli, 1, 19; Rev. xiii, 7-8; xvii, 14; xix, 19-20; xx, 1-6.

Turning back from this faraway look to the particular incidents of the lesson, we note that it is not in order for us to continue too long in any place of special privilege when there is work to be done and people in distress needing us at the foot of the hill. Special times and places of special revelations of Himself to us are to fit us to be better witnesses unto Him with increasing victory over the world, the flesh and the devil. If the prayer meeting, the Bible class, the Bible conference and such times and places of fellowship with Him do not enable us, in the days following to show more of His presence and power in the home, the place of business, the social life, where is the benefit? People say: I was so blessed. I had such an uplift, it did me so much good. Well, thank God, but now show it in your life and you won't need to tell it, and if your life does not show it, better say nothing about it. The spirit through James teaches us that faith that is mere, talk amounts to nothing; there must be works corresponding to our faith for the sake of those who do not understand.

John says: My little children, let us not love in word, neither in tongue, but in deed and in truth. (Jas. ii, 1 John iii). The story of this demoniac boy is written briefly in Matthew and Luke, but most fully in Mark. Luke tells us that he was an only child and that when he was healed Jesus delivered him again to his father (Luke ix, 38, 42). An only child given to Jesus' hands is given back better than when He received him; made perfectly whole. He is the same yesterday, today and forever, this same Jesus.

Take in this scene as well as you can—a great multitude, a distressed father, a sorely afflicted only child, some disciples of Jesus truly saved who had on other occasions wrought miracles but now are helpless. They could not cure him.

Did you ever see yourself, a true follower of Jesus, yet powerless to show something of Him to those who know Him not and unable to help those who need help? Did you say from the heart: Why could not I? And did you hear Him say: Because of your unbelief? (Matt. xviii, 20). And have you been wondering since if you really knew what it means to have faith in God? Then what about the prayer and fasting necessary in some cases? Oh, how much there is to learn, and how many seem to have a dumb spirit or an evil spirit of some kind, that seems too often to control us.

Bring him hither to me, is about what He said concerning the bread when He fed the thousands. Come unto me, is His cry to all the weary and heavy laden and we may well say: Lord, to whom shall we go but unto Thee? (Matt. xi, 28; John vi, 68). This evil spirit had long sought to destroy this child and now he made a last effort. The devil has always been and still is a destroyer, a devourer, a murderer, but the Lord is no life giver, the deliverer, the Saviour.

Hear the father's cry: If thou canst do anything. His disciples failed. Could He do better? People who do not know the Lord judge Him by His followers. Are we bringing Him honor or reproach? Jesus said unto him: If thou canst believe, all things are possible to him that believeth. (verse 23). Lord, I believe, cried the father. Jesus rebuked the spirit and commanded him to come out of him. Ere he did so he rent him sore and left him as one dead, but he departed out of him. Jesus took him by the hand and lifted him up, and he arose and was cured from that very hour. Our Lord does not give the same power to all, but to each one severally as He will.

Have all Doubtful Seeds Tested

Owing to the fact that climatic conditions have again been unfavorable in certain districts to the satisfactory maturity of seed grain, we wish to draw the attention of every farmer to the advisability of having his seed tested for germination.

Oats are particularly subject to injury by frost, and in certain stages of their growth are rendered worthless for seed purposes even though they may look perfectly plump and sound outwardly. Others again, though undoubtedly frozen, are not seriously affected in vitality. As a germination test it is the only sure indication of the grain's condition in such cases, we would strongly advise having all doubtful oats tested.

Flax is also subject to injury by frost as well as moisture, and its vitality may be considerably lowered by these factors. Barley is affected likewise and often shows a low percentage of growth when cut after frost. Wheat, on the other hand, is much less liable to injury and will usually germinate readily even when frozen quite severely. It may, however, be rendered unfit for seed by frost or through excessive moisture.

Timothy cut after frost should be tested, as it is often greatly reduced in vitality. We would also suggest having tested any other cereal or fodder seeds that may be suspected of not being up to the full standard of germination.

In sending in samples to be tested the following points should be remembered:

1. All samples are tested free of charge.
2. Application to the Dominion Seed Laboratory, Calgary, Alta.
3. About half such a bag full (1000 grains) is ample for a germination test.
4. If possible sample should be cleaned before sending.
5. Postage should be prepaid at the rate of 2 cents for 4 ounces and 1 cent for each additional 4 ounces.
6. It is unnecessary to enclose stamps for a reply.
7. The usual time necessary for a test is 10 days, but when a retest is made a longer period is required.
8. All samples should be plainly marked with the name and address of sender, together with an identification designation when more than one is sent.
9. All samples should be sent to the Dominion Seed Laboratory, Calgary, not to any individual member of the staff.

In addition to the above, this department, when required, tests any kind of cereal or fodder seeds for purity from noxious weeds. Samples sent in for such purposes should contain not less than one pound of the larger grains and two ounces of flax, grasses and clover.

Look After Your Roads

As the time is rapidly approaching when new Councillors and past masters are appointed for local improvement districts, care should be taken as to who are appointed for these offices. Often times men are appointed for these positions who do not appear to be capable of filling the positions and same is always noticeable when passing through the country over the roads in their respective districts.

Some roads are more flat with little chance of drainage and on such roads allowance can be made. However, we understand that some roads are in a deplorable state, simply through neglect of the pathmaster. For instance, there is a space of about two miles of road at and west of Neapolis store which could stand a great deal of improvement. This road is no doubt hard to keep in repair considering the flatness of the land. However, there is no excuse in having these mud holes which are not passable and which have caused no little trouble. Our attention has been drawn to one mud hole in which horses got hurt, automobiles mired which had to be pulled out by teams, also threshing separator mired in same. This could all be avoided if the pathmaster and councillor in the district would do their duty. This road is a main thoroughfare to Didsbury and should be kept in better shape. There are times when the rainy season is on when allowances are made for bad condition of roads. However, at this time of the year the roads should be made passable. There are other roads, of course, which could be better.

Our idea in writing this article is to wake up the different councillors and see that the territory allotted to them to look after will be properly attended to.

A WINTER COAT

not only keeps cold out, but conserves body-warmth; body-fat serves the same purpose, it enables us to resist unsettled elements and serves as the great source of our body-heat. Greater body-warmth means richer blood, more fat, not obesity but fat which the body consumes for warmth, vitality, resistance-power—as a furnace consumes coal for heat—**Scott's Emulsion** does this.

A teaspoonful after each meal makes body-warmth—healthy, active blood—sharpens the appetite and makes all good food do good.

It drives out and keeps out cold by raising endurance-power and creating strength.

Reject substitutes for **SCOTT'S**.
Scott & Bowne, Toronto, Ontario 12-41

White Pine Culls Now in Demand

A peculiar feature of current lumber demand in the old white pine sections of the North is the extraordinary requirement for low grade stock. It is so persistent and devouring that it takes in culls so ranks that 20 or 30 years ago they would have been considered refuse, fit only for the roughest kind of patching up of sheds, and when accumulation became too burdensome they were thrown into the burner or used to build wharves or roadways, or for firewood. Grading downward has come with the demand for box material, until three-men boards, as they have been jocosely called, are now graded as No. 5 or anything below that. The call for low-grade stuff has become so general and insistent that such stuff is more saleable than the medium and better qualities. This feature is true not only of the lumber market of the Northern States, but pertains also to that of Canada. At Toronto the demand for the lower grades of pine is especially active and large, so that there is a veritable shortage of mill culls and what are called dead pickings, in it. This condition with respect to the lumber-market of Ontario shows how closely the lumber trade of that province is connected with that of this country, the same requirements for cull lumber—namely, for box manufacture—prevailing in that province as in the northern part of the United States. The way in which the cull lumber of the Northern States and Canada is being used up almost to the last carload has more than ordinary significance. It means that anything in the shape of a tree or log is being utilized in the way of sawed product, and that timber that was once considered usable only as firewood is now being converted into lumber that actually sells quicker than good stock.—American Lumberman.

Poor old Patrick! He was but the shadow of his old self. He was a soldier boy who'd been serving in a minor war in the hill country of India, and he'd had a rough time, bedad.

So seedy, so thin and worn indeed, was Patrick that he was invalided home that he might have an early opportunity of pulling himself together, and showing that he was truthfully a brawny son of Erin.

As he stepped ashore from the troopship at Southampton his cousin Timothy stepped up to meet him.

Why, Patsy, my boy, remarked the cousin, it's right glad that Ol am to see ye're back from the front.

Patrick looked grieved and sad, chastened and ill-at-ease.

Bedad, Tim, he said, Ol knew Ol was thin, but Ol'm bothered if Ol thought I was as thin as that.

TWO POINTERS ON HOW TO CURE A COLD

When you begin to sniff and feel a burning sensation in the nasal passages, or when a tickling irritation in your throat starts you coughing, the first important thing is to act at once. It's the neglected cold that becomes troublesome and dangerous.

The second important thing to do is to take Na-Dru-Co Syrup of Linseed, Licorice and Chlorodyne, and keep it up till the cold disappears entirely.

Na-Dru-Co Syrup of Linseed, Licorice and Chlorodyne is absolutely free from harmful drugs, and can safely be given even to moderately young children. It is pleasant tasting and quick acting, promptly relieving the irritation of the throat and nostrils, loosening the mucus, prompting expectoration, and checking the cold.

Your druggist has Na-Dru-Co Syrup of Linseed, Licorice and Chlorodyne in 25c. and 50c. bottles, or can quickly get it for you. Compounded by the National Drug and Chemical Co. of Canada, Limited.

W.N.U. 928

MONKEY AND BEAR FIGHT

Brutal Exhibition in an English Town Is Stopped by Audience

An exciting scene occurred at a music hall, in which the audience rose in a body and protested against the performance was described to the Scarborough magistrates yesterday when John Hendrickson, proprietor of an animal circus, was summoned for cruelty to a small bear and a monkey.

It was alleged that on Monday night defendant introduced at the People's Palace and Aquarium what was described as a fight between the bear and the monkey. The latter had tied to its neck a heavy weight, which prevented it from moving easily; and a small black bear was dragged on to the stage, evidently very much against its will.

I am now introducing John Johnson, defendant told the audience. You will now see a fight between black and white. He then incited the animals to fight.

The monkey jumped upon the bear's back and bit it about the eyes. The bear attempted to escape from the stage, but the defendant dragged it forward again and a fierce struggle of about one minute's duration ensued between the animals.

The bear freed itself, but the defendant again brought it up to the scratch and a further fight took place.

The audience rose almost en masse and protested against the continuance of the disgraceful exhibition and subsequently the manager barred the performance for the rest of the week.

Defendant told the magistrates that he was very sorry that he had ever shown the bear. The two animals had played together like kittens.

The magistrates imposed a fine of \$5 and costs.

ANAEMIC GIRLS SEEM EVERYWHERE

Nine Out of Every Ten Show Symptoms of This Serious Trouble

So steadily does anaemia undermine the health of young, growing girls and young women that it is rightly regarded as one of the greatest enemies of her sex. Nine women out of ten are bloodless, more or less, and in many cases neglect has allowed anaemia to develop into hopeless decline. There is a security and new strength for weak, tired girls and women in Dr. Williams' Pink Pills for Pale People. They actually make the new, good blood of health that banishes the "always tired" weakness, and the continual backaches of anaemia. They drive away headaches, the low spirits, the palpitation of the overworked heart and the fits of nervousness that mark the women whose weak blood is unable to nourish their wasting frames. Dr. Williams' Pink Pills have given health to unhappy anaemics in cases too numerous to record. Here is one example. Miss Hattie B. White, Whitehall, Ont., says:—"Some two years ago I became very much run down. I consulted a doctor who told me that it was a bad case of anaemia and nervousness. I had most of the symptoms that accompany this trouble, such as headaches, a tired feeling, poor appetite, and pallor. The doctor's medicine did not seem to help me and then I began changing from one medicine to another, but with no better results. Finally at the suggestion of my mother I decided to try Dr. Williams' Pink Pills. I got two boxes and by the time I had taken them I began to feel better. This cheered me very much, and I continued using the Pills until I had taken nine or ten boxes, when I was again enjoying the very best of health, and had gained in weight as well. I have proved in my case that Dr. Williams' Pink Pills are a cure for anaemia, and can recommend them to similar sufferers."

Sold by all medicine dealers or by mail at 50 cents a box, or six boxes for \$2.50, from The Dr. Williams' Medicine Co., Brockville, Ont.

Matter of Taste

He was the sort of young men who takes a girl out and talks a lot of pretty things, but never dreams of buying anything, not even a penny bar of coconut taffy. They had been walking out together for quite a time, and she was getting a bit tired of it. One evening they came to a pause outside a gaily decorated confectioner's shop. Look, darling, he whispered gushingly, I can see your beautiful sweet face quite clearly in that window.

But she was determined on making a change. That's all right, George, about my sweet face, she said, coldly, I'm tired of hearing about it. I wish you'd remember my sweet tooth now and then instead.

The Cheery Ad. Man

New Merchant—How big an ad would you advise?

Advertising Man—That depends on how many tons of customers your store floor will sustain. You would not want 'em to break through into the cellar, of course.

SHAW'S SCHOOLS

The Central Business College, Toronto, with Four City Branch Schools. —The Central Telegraph and Railroad School and The Shaw Correspondence School, are now commonly known as "Shaw's Schools." In these schools a great work is being done in training young people for business pursuits and for earning good salaries. The annual curriculum is interesting and is mailed free on sending request to W. H. Shaw, President, Toronto, Ont.

Detected

One Saturday night, as the hour struck eight, a small figure might have been seen sitting up in its cot, and gazing thoughtfully into space. The thinker was little Bobbie and he was up against the biggest problem he had ever had to tackle in all the vast experience of his six years.

Were father, mother and brother Jack going out while he was put safely to bed? That was the question and oh! how to find out.

Stay! A thought suddenly struck Master Bobbie, aged six, and he called to brother Jack to come at once. Brother Jack came and was hugged violently for two or three moments and then thrust on one side.

Call mummy now! demanded Bobbie.

Mummy was called and subjected to identically the same treatment, except after pushing her away from him, Bobbie looked steadily at her, triumph struggling with sorrow in his face as he exclaimed.

There! I knew it. You are all going out without me! I can smell fresh soap on your faces!

Used according to directions, Dr. J. D. Kellogg's Dysentery Cordial will afford relief in the most acute form of summer complaint. Whenever the attack manifests itself no time should be lost in seeking the aid of the Cordial. It will act immediately on the stomach and intestines and allay the irritation and pain. A trial of it will convince anyone of the truth of these assertions.

Very Evident

An old bon-vivant who kept a fine establishment received a visit from his maiden-aunt. He took great pride in showing her over the place and pointing out its many treasures, remarks Lippincott's. As a special favor he let her have a glimpse of his famous wine cellar.

You're the first woman who has ever set foot in here, he said. Gracious. I should say I was, she replied. Why the place is full of cobwebs.

A Treat Anytime

Crisp, delicately browned

Post Toasties

Ready to serve without further cooking by adding cream or milk.

Often used with fresh or canned fruit.

"The Memory Lingers"

Canadian Postum Cereal Co., Ltd., Windsor, Ontario.

SEED GRAIN AND POTATOES

Distribution From the Dominion Experimental Farms, 1912-1913

By instructions of the Hon. Minister of Agriculture a distribution of superior sorts of grain and potatoes will be made during the coming winter and spring to Canadian farmers. The samples for general distribution will consist of spring wheat, 5 lbs; white oats, 4 lbs; barley, 5 lbs; and field peas 5 lbs. These will be sent out from Ottawa. A distribution of potatoes in 3 lb samples will be carried on from several of the experimental farms, the Central Farm at Ottawa supplying only the provinces of Ontario and Quebec. All samples will be sent free, by mail.

Applicants must give particulars in regard to the soil on their farms, and some account of their experience with such kinds of grain (or potatoes) as they have grown, so that a promising sort for their conditions may be selected.

Each application must be separate and must be signed by the applicant. Only one sample of grain and one of potatoes can be sent to each farm. Applications on any kind of printed form cannot be accepted. If two or more samples are asked for in the same letter only one will be sent.

As the supply of seed is limited, farmers are advised to apply early; but the applications will not necessarily be filled in the exact order in which they are received. Preference will always be given to the most thoughtful and explicit requests. Applications received after the end of January will probably be too late.

All applications for grain (and applications from the provinces of Ontario and Quebec for potatoes) should be addressed to the Dominion Cerealists, Central Experimental Farm, Ottawa. Such applications require no postage. If otherwise addressed delay and disappointment may occur.

Applications, for potatoes, from farmers in any other province should be addressed (postage prepaid) to the Superintendent of the nearest Branch Experimental Farm in that province.

Awful Asthma Attacks. Is there a member of your family who is in the power of this distressing trouble? No service you can render him will equal the bringing to his attention of Dr. J. D. Kellogg's Asthma Remedy. This remarkable remedy rests its reputation upon what it has done for others. It has a truly wonderful record, covering years and years of success in almost every part of this continent, and even beyond the seas.

A Matter of no Importance

Little Kitty, with arms spread well across the table, and with little tongue well out, was bending over a piece of paper, on which she made queer and illogical dots and marks.

Darling, cried her mother, as she came into the dining-room and found the curly head so low over its task, what are you doing?

Oh, just writing to my friend, Lillie Smith! answered Kitty quietly, and resumed her wayward scratches.

Her mother suppressed a laugh as she watched the earnest little dashes scrawled across the white paper. Then she finally said, trying to speak with as much indifference in her voice as had her little daughter:

But, dearest, you don't know how to write, do you?

No, mummy, replied the small scribe, as she glanced round plyingly at her parent. But what does that matter? Lillie Smith can't read.

Minard's Liniment Cures Colds, &c.

Made to Measure

The traveller was waiting at the little countryside station when he was suddenly startled by a sharp ringing of a bell.

Instantly three of the railway employees ranged themselves up in a line on the platform, and stood at attention.

A moment later a locomotive flashed by with a single carriage. Out of the window of the carriage a man was leaning. He made hurried notes in a pocket-book as he passed.

The traveller marvelled greatly, and inquired of the station-master the meaning of the strange scene he had witnessed.

That? replied the official. That was the company's tailor measuring us for new suits.

Then the traveller went mad and promptly bought a station sandwich.

While the new Grand Trunk Pacific hotel in Edmonton has been christened after Sir John A. Macdonald the Great Canadian statesman it is also said to be a fact that the original settler in the Albertan Capital was a man named John Macdonald, who came from Garth at the close of the eighteenth century and established what is today a thriving city of 55,000 before the Hudson's Bay Company erected its fort and trading station on the banks of the Saskatchewan River. It is said that he crossed the plains with an ox team in the summer of 1789 and located on a farm overlooking the river, within a stone's throw of what is now the principal business thoroughfare. Thus the "Chateau Macdonald," will have double associations and a link with the history of the city in which it is situated as well as with the history of the entire Dominion.

The Playing of It

Town Band Leader—This is great. Most of the audience is weeping.

Oboe player—Aw, I bet it isn't the sentiment of the piece—it's the way we played it.

INFLAMMATORY RHEUMATISM

Conquered by GIN PILLS.

Mr. W. G. Reid, Hamilton, Ont., writes: "I have been for the last two years a cripple with Muscular and Inflammatory Rheumatism. I tried almost everything known to medical science and sought change of climate without relief. Your manager in this city recommended Gin Pills and I have since taken eight boxes and am now cured. I consider Gin Pills the conqueror of Rheumatism and Kidney Disease."

50c. a box, 6 for \$2.50. Sample free if you write National Drug and Chemical Co. of Canada, Limited, Toronto. 132

Calves For Sale—Apply A. Chamberlain, Didsbury.

AROUND THE TOWN

Alf Jury, who has been working in the north, was in town on Tuesday. Mr. Jury left on Wednesday for a visit to England for a few months.

The Literary Society of the Didsbury High School held their regular fortnightly concert on Friday afternoon last and there was a good attendance of parents present. The pupils acquitted themselves well in the programme and it is becoming a pleasure to attend these concerts.

Mr. J. B. Detwiler of Winnipeg, late of Didsbury, is a welcome visitor in the district and is renewing old friendships. Mr. Detwiler looks exceedingly well in health and states that Winnipeg is growing very fast. He saw very little change in Didsbury since his departure. Mr. Detwiler is one of the fathers of Didsbury.

Editor Geo. R. Westland of Innisfail Province made us a friendly visit on Friday last. Mr. Westland is an old time chum of ours and the visit was much appreciated. He was greatly interested in town affairs, especially the electric lighting plant and matters connected with the school, and complimented the town on having such up-to-date plant. Mr. Westland is closely in touch with town affairs at Innisfail and states that everything is prospering there. Their new electric lighting plant which started operations in September is giving great satisfaction. Come again, George.

Nomination Day Monday

Nomination day is Monday next, when a Mayor, four new Councillors, and three School Trustees will be nominated for election which takes place on Monday, Dec. 9th.

Those retiring from the Council this year are Mayor Atkins, Couns. St. Clair (resigned), Shantz, Wrigglesworth and Oliver.

School Board—Dr. A. J. Weart, H. Reiber, and J. V. Berscht. Time for nominations is one hour, from 11 to 12 a. m.

Calgary, Alta.

A Hero

A small fire occurred at the Didsbury Lumber Co.'s office on Saturday morning last through an over heated stove pipe. The fire brigade "got there" in a hurry and again with the help of the brigade the chemical engines did good work and only a very few dollars worth of damage was done.

Oh, yes! The hero. We nearly forgot him. Two carpenters were working on the roof of the office when the fire started and when it (the fire) was discovered by the manager of the Lumber Co., he immediately got to work and tried his best to qualify for the Carnegie hero fund by saving the two victims on the roof of the building, which is about fifteen feet high. Some hero, eh!

HIGH GRADE MEATS of the quality kind we offer you, renew strength and build bone and sinew and good red blood.

WHY DON'T YOU order your meats here where you can be sure of sanitary cleanliness, healthful quality, choice cuts, courteous service and prompt delivery?

We satisfy every patron.

Bring your butter, eggs and chickens to us, we pay the highest cash price for them.

City Meat Market
M. E. JONES, Prop. Phone 42

Don't waste your money buying strengthening plasters. Chamberlain's Liniment is cheaper and better. Dampen a piece of flannel with it and bind it over the affected parts and it will relieve the pain and soreness. For sale by all dealers.

It is not too early and this is the place to BUY TOYS & XMAS PRESENTS

A LARGE and ASSORTED STOCK to choose from. Come in and see them.

Prices here lower than Calgary or Winnipeg
